About the FRN

The Roane FRN is a nonprofit organization, which coordinates monthly networking meetings among families, providers and community representatives. We strive to increase community awareness of local and state issues that affect children and families. We assist and encourage community groups to work together to identify and address local issues, promote coordination of existing community services to maximize benefits to families and promote opportunities for families to impact decisions that affect them. Please join us in our monthly meetings held at the Mid-Ohio Valley Health Dept., in Spencer on the 3rd Tuesday of each month at 12 p.m.

This guide is limited to those services and agencies deemed essential or useful for the quality of life of Roane County's families and citizens, particularly those facing economic hardships or other challenges.

While many of the listed services, agencies and organizations have physical locations elsewhere, they nonetheless serve the residents of Roane County. In most cases, nothing comparable is found within the boundaries of our county.

The information in this guide is only as useful as its accuracy and completeness. If you find any errors or have a suggestion for an additional listing, please contact, Jill Greathouse, Executive Director of the Roane County FRN at (304) 927-6070

PATCH successfully administers several different grants that focus on character education, tobacco, drug, and alcohol prevention, civic duty and service learning, watershed and clean water awareness, entrepreneurial job skills, and leadership. The PATCH staff endeavor each year to offer programs that children are excited to participate in, and this maintains interest and involvement. From entrepreneurial and job skill courses to heritage and traditional instruction (fiddle, guitar, quilting/crocheting, fly tying, etc) to science and technology, the courses offered through the PATCH program continue to offer students a choice of unique programs that “are intentional, involve choice, and develop the use of new and exciting opportunities for learning” which are key components to successful academic achievement as cited by research presented in the Harvard Family Research Project (HFRP, Feb. 2008). PATCH offers a variety of 94 different educational enrichment programs across the counties for grades Pre K-12 and their families and plans to keep the same success record at the schools, for the students, and for families that we serve.</p>	<p>304-927-8047 Fax: 304-927-8084 www.patch21.org www.facebook.com/patch21 Email: info@patch21.org</p>
